

Our Mission and Vision

Our mission is to provide an effective forum for the exchange of ideas and peer-to-peer support that is tailored to meet the special needs of the caregivers to survivors of brain injury.

We believe there is always hope and we will never give up on our survivors.

We believe that idea sharing and mutual support are an important part of the caregiving process.

Severe Brain Injury Caregiver Support Group

*A Place to Exchange
Ideas
And Let Other Brain
Injury Caregivers Know
They Are Not Alone*

*Each Survivor is Different
Together We Are Stronger*

Your Personal Invitation

The Severe Brain Injury Caregiver Support Group meets using Zoom Room internet conferencing. It is easy to login by home computer, smart phone or regular cell phone (without video) and connect with people who are looking for answers about brain injury caregiving.

We are a source of education, idea sharing, and encouragement to those who need understanding, information, and a shoulder to lean on while coping with the consequences of providing for a brain injured loved one.

Caregivers from anywhere in the country are personally invited to come and join us.

Our Brain Injury Caregiver Support Group meets online from 7:30 to 8:45pm (eastern Time) on the Second and fourth Sunday of each month using Zoom Room Internet Conference Software.

We Are A Source of Support and Hope

Many Brain Injury patients have mild and moderate injuries that have their own unique challenges. But there is a very small group of Brain Injury survivors that had severe brain injuries and have not experienced dramatic improvement - including those who remain in a minimally conscious state. Many of these patients are cared for in institutional settings. And some are cared for in the home of their families. Such non-institutional care requires unique skills and determination. Our group seeks to provide education and support to the caregivers who are determined to provide a non-institutional setting for their severely injured BI survivor.

Benefits of Attendance

Attendance at our meeting will increase your awareness of the consequences of brain injury caregiving. Being able to talk with others who truly understand what you're going through reduces stress, validates your experience, and gives connection and strength.

You will meet people who have a unique understanding of caregiving for the severely brain injured. You will hear their stories and you will be able to share yours.

You can help us become a voice for brain injury caregivers everywhere.
